Cesco and Onyx Enameled Wares

IT is our pleasure to present this catalog of Cesco and Onyx Enameled Ware that has been compiled for the convenience of our customers. Each line is illustrated and described separately showing in detail the many improvements in shapes and fittings that have recently been effected.

Only materials of tested quality are employed in the manufacture of our products. Each article is formed from smooth, strong pickled and annealed, open hearth steel. To this base the handles, ears and lugs are electrically welded making it practically one piece. Spouts are carefully formed and welded by gas. This solid steel base is thoroughly coated with vitreous enamel making it impervious and sanitary. Hundreds of skilled workmen are employed in our extensive and modern factory—expert inspectors carefully examine each finished article before it is shipped out to the trade. Our high standard of selection insures uniform high quality.

We have greatest confidence in our ability to please and satisfy our customers, based on years of experience in the manufacture of stamped metal wares. Thousands of dealers have realized handsome profits through the sale of Columbian Made Wares as they have long been recognized as leaders in their respective fields.

Let us take this opportunity of expressing our appreciation to our many friends and customers who have favored us with their continued patronage. We accredit our progress to this loyal support and earnestly solicit your future business. To you and our future customers we maintain our guarantee of Quality, Service and Satisfactory Dealings.

INTRODUCTION

SPECIFY by Catalog *numbers* and give *name of finish* in order to avoid misunderstandings and unnecessary delays.

Seamed and Seamless articles are offered. Tin covers are not furnished. Where articles are listed with and without covers, state plainly whether or not covers are required.

Case lots and approximate weights shown herein are as ordinarily packed. We reserve the right to pack to best advantage in the event of shortage of box material or to facilitate prompt shipment.

Claims must be accompanied by carriers receipt with exceptions noted thereon.

Returns may be made only upon orders of the factory or its representatives and must be accompanied by bill of lading and list of articles returned.

Our responsibility as shippers ceases when we have received a clean receipt from transportation company.

Cesco Enameled Ware

BOTH seamed and seamless articles are furnished in this high grade line of triple coated white and white ware. Three times each piece is dipped into liquid enamel; three times it is fused to a glowing white heat making it tough and durable. The beads, handles and trimmings are finished in rich royal blue enamel. Black ebonized bail woods are used on all pieces having wire bails.

Cesco Ware is a quality line, moderately priced. Careful manufacture and watchful inspection make the line attractive as well as durable. You will find it profitable to allot commanding space in your store to display this white Enameled Ware. Frequent and well arranged window displays will make excellent impressions on prospective buyers and add materially to your sales.

Build up a permanent, profitable business by having a well assorted selection of Cesco Enameled Ware in stock at all times.

Cesco Triple Coated Enameled Ware

for

Sick Room and Hospital Purposes

PATENT OFFICE

OCT 4 1949

DESIGN DIVISION

Cesco Enameled Ware for Sick Room and Hospital

OUR policy of instantly adopting such improvements and inventions that increase the utility of our product enables us to present a most complete line of Hospital and Sick Room accessories. This line is made by the same careful processes employed in the manufacture of Cesco culinary and household utensils.

Hospitals recognize the necessity for utensils that will render constant and satisfactory service and yet remain in a sanitary condition. Cesco Ware meets this demand. The smooth, shining surface of this triple coated white ware is easily cleaned and extremely durable.

The Bed Pans, Irrigators, Urinals, etc. illustrated on the following pages are most carefully designed to meet the requirements of this discriminating class of trade. Your particular attention is directed to the Queen Bed Pan. The superior welding of the parts makes this pan absolutely seamless—its design gives utmost comfort to the patient. You should have a few of these sick room necessities in stock at all times.

SECTION D

Onyx Enameled Ware

Onyx Enameled Ware

For over a generation Onyx Ware, mottled white on brown, has been familiar in thousands of homes here and abroad. Without question it is the most dependable enameled ware made today. Quality, Strength and Durability are combined in making Onyx Ware unsurpassed by any other line on the market.

Onyx Ware is beautifully colored inside and out, a white spray evenly distributed over a rich brown second coating. Beads, handles and trimmings are finished in black enamel. Black ebonized bail woods are used on all articles having wire bails.

Onyx Ware has been sold for many years as an absolutely guaranteed line. It has the approval, after extensive and severe tests, of the Department of Engineering, Good Housekeeping Institute, Modern Priscilla Proving Plant and Farm and Home Testing Station. We are authorized to make use of the seals of approval supplied by these institutions.

To the merchant who builds by the tested quality of his merchandise a business that will continue to profit by many repeated sales, we offer this line. Wherever sold Onyx Ware has given absolute satisfaction. We guarantee it will please you.
